# 5,000,000 BULBS AVAILABLE TRUE FACTS

## This Is Your Chance. Don't Miss It!

Due to the conditions on the west coast, millions of flowers that were generally grown there will not be available this summer. The markets that the west coast growers supplied will now depend on the eastern growers.

We recommend that you take advantage of this offer where an opportunity of this kind will not appear again for many years to come.

DOROTHY S. A new dwarf continuous flowering clear salmon red Canna. Produces large flowers and grows about 4 feet tall. Very vigorous and drought resistant.

YELLOW KING HUMBERT. 4 feet. An orchid-flowering sport of the well-known King Humbert. Flower a deep, rich yellow, softly spotted and blotched with bright red. Some plants occasionally give a scarlet or scarlet striped flower, which we consider an improvement rather than a detriment. Green foliage.

THE PRESIDENT. 4 feet. This immense new flaming scarlet has come into wider use more quickly than any other Canna. The President leads the red varieties in the quality and also the quantity to its bloom. The foliage is rich green and burn-proof in the hottest weather.

## Variety

This image shows a single page of white paper with horizontal black ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper has a slightly textured appearance with some minor blemishes or dust specks scattered across its surface. The edges of the paper are slightly irregular, suggesting it might be from a notebook or a loose-leaf binder.
